PRO-MIC Visual Quantum Analysis Tool Pak Option

The **Visual Quantum Analysis Tools** are an add on module for Visual Quantum Lite.

The Analysis Tools provides advanced profile comparison abilities including:

Compare profiles from before and after grinding.

Compare **up to 5** profiles at a time to:

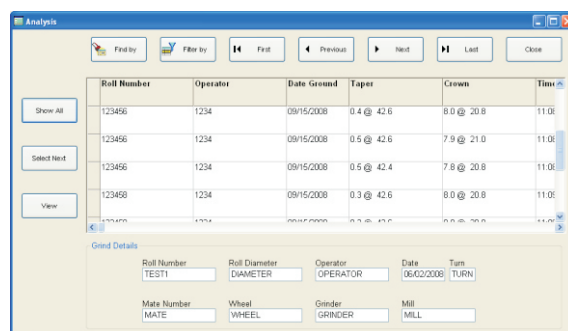

Show **roll wear** over time.

Show **thermal changes** in rolls over time.

Compare grinding ability of machines.

Compare roll wear from different mill stands.

Call us at 1-800-PRO-MIC-1 to discuss the advanced analysis possibilities for your shop. We'll be happy to work with you.
