Reliability, Repeatability and 3-Button Routine Operation

PRO-MIC Visual Quantum Touchscreen

Introduction

The latest version of PRO-MIC's Visual Quantum software is Touchscreen ready.

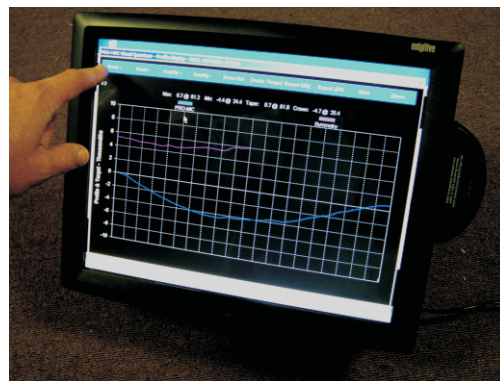

You can now enjoy all of the features of our Visual Quantum software (in use in 80 locations worldwide) in a convenient Touchscreen PC.

Eliminates the need for a keyboard or mouse in the shop environment.

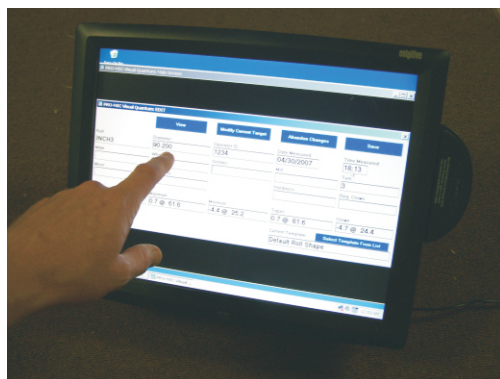

Best of all, the program can be used on any Touchscreen PC. We'll be happy to recommend manufacturers at your request.

Please see Technical Notes TN-007T and TN-007A for complete information on the Visual Quantum software package.

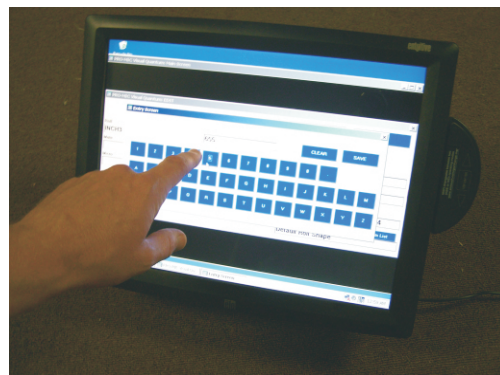

Call us at 1-800-PRO-MIC-1 or visit www.PRO-MIC.com for more information about our software packages.
